## Check the vehicle's dimensions

You will then soon find the right vehicle model

## Utility vehicles' body design

Choose the right basic design. You have to check the vehicle.

**Box-type**, cladded with sheet metal

**Station wagon**, completely glazed

## Door variants and special glazing for utility vehicles

Utility vehicles are produced individually. Some areas may thus be glazed or cladded with sheet metal, the door arrangement can vary. This can only be checked by looking at the vehicle.
